Working Class Names Candidate for Mayor

George Koop, Union Printer and Tireless Agitator for Labor, Is Nominated

The only pay workers that will have on the ballot in the field lost last night by the Socialist candidates for candidates for Public Works, the Socialist party. The election was held at 5 o'clock last night in the 2nd Ward, where the Socialist candidates, who have been working hard, were able to carry the ward.

The Socialist party, whose candidates are George Koop, were elected for the position of Mayor, the position of Clerk, and the position of Treasurer. The Socialist candidates were led by George Koop, who has been working hard for the party and has been able to carry the ward.

Forty-Three Socialist Representatives Remain Away to Show Hatred to “Divine Rights”
The Red Flag or the Black

BY ROBERT DOUBRA

It would be an interesting fact in in-
vestigation to find out how many of
the women in the labor movement are
now working and not living up to the
standards of the working class. It is
known that in all the women's factories,
workers are paid less than the men.

The strike by the women at the
"Good Ten" was the result of a
strike by the men, who made it known
that they would refuse to work for less
than the men. The women have been
working for a long time on the average
of $1.50 per day, while the men are
receiving $2.50. This is a loss of
income for both the women and the
men.

It must be remembered that the
women are working in order to main-
tain themselves and their families,
while the men are working for profit.

The strike by the women was
considered as a protest against the
exploitation of the working class by
the capitalist class.

Russian Wages

Government reports and workers' organizations in Russia show that the wages of the workers have increased considerably in recent years. This is due to the fact that the government has been able to provide better living conditions for the workers. The increase in wages has been accompanied by a decrease in the cost of living, which has resulted in a higher standard of living for the workers.

The government has also been able to provide better education and medical care for the workers. The government has established a system of free education for all children, and has also provided free medical care for all workers. These measures have helped to improve the health and well-being of the workers, and have contributed to their increased productivity.

The government has also been able to provide better housing for the workers. The government has established a system of public housing, and has also provided low-rent housing for the workers. These measures have helped to improve the living conditions of the workers, and have contributed to their increased productivity.

In conclusion, the government has been able to provide better living conditions for the workers, which has resulted in a higher standard of living for the workers. The government has also been able to provide better education and medical care for the workers, and has also provided better housing for the workers. These measures have helped to improve the health and well-being of the workers, and have contributed to their increased productivity.
THE ACTORS' UNION
BY MAY WOOD SIMONS

The actor has considered his work as a profession and himself as an
artist belonging to a little different class from the manual laborer, yet
so terrible are the conditions under which he works, and so
desolate is the outlook for the future, that the professional
actor to-day is looking to the government for a handout.

This movement that has not yet to prove itself is that of
organizing for a union. It has a good deal of support from
some of the leading business people.

In the case of the stage actor there are two main claims
against which the movement is fighting. One is that the
trades unions are inapplicable to the theatre.

From the point of view of the state, it is impossible
that the actor, under the laws of the state, have the same
remedy against the abuse of power and the breaches of
contract as the other trades.

Of the conditions of the trade, it is impossible for the
actor's union to have the same efficacy as the other trades
unions. The workers in the theatre are not in the same
situation as those in the railway or the building trades.

Under these conditions actors are obliged to play the
same part over and over again.

In theatre management, the theatre owner is the
agent of the booking agent, the booking agent is the
agent of the producer, the producer is the agent of the
author, and this chain of responsibility makes it difficult for
the actor to protect his interests.

The actor's union is forced to do away with these abuses.
The union is free to choose the conditions under which the
trade can be carried on.

The actor has been a member of the organization for three years but has
not been able to do much for the trade. The things that the union does do is to improve the condi-
tions of the trade and to bring about a better understanding between the
actors and the management.

The actor is left behind in the city fire aid is the main
interest of the operators. These men have no long
secrecy of secrecy as to the

For the Working Class Alone

The platform of the Socialist Party of Chicago, like all other platforms of that party expresses no interest in any other class besides the working class. This is not to say that the Chicago Socialists are not interested in the problems of society as a whole, or that they do not feel that the interests of the working class are intimately bound up with the interests of the whole world. But their platform is made up of resolutions which make no distinction between the interests of the working class and the interests of the working class alone.

One of the Chicago Socialists has remarked upon the fact that the capitalist healthy men are driven to the point where they do not make any pretense of being a party for the working class alone. They have no interest in the interests of the working class alone. They have no interest in the interests of the working class alone. They have no interest in the interests of the working class alone. They have no interest in the interests of the working class alone. They have no interest in the interests of the working class alone. They have no interest in the interests of the working class alone.

The Chicago Socialist platform is therefore made up of resolutions which express no interest in any other class besides the working class. This is not to say that the Chicago Socialists are not interested in the problems of society as a whole, or that they do not feel that the interests of the working class are intimately bound up with the interests of the whole world. But their platform is made up of resolutions which make no distinction between the interests of the working class and the interests of the working class alone.
