New York, March 29.—With a cubic yard of violent stomachache to cope with Bill Snyder, keeper of "Big Juie," the largest and most ill-tempered elephant in the Central Park Zoo, has been forced to use herok efforts. He and the director decided "a littile whishey" might do "Jule" good. So Snyderwent to the nearest saloon and purchased four quarts. He poured if into a hig demijohn and made the highest highball ever seen. "Jule," hering a perfect lady, objected to the whisky and it took fine attendants to throw her down and bind her. All the time she was writhing in pain of her irenendous stomachache.

Then Snyder tipped the demijohn and the whisky started in a garging little sirean down the 'hig red lane."

As the liquor reached the seat of war, "Jule" began to grow calm. Her wild eyes softened and her strained muscles relaxed.

Gradually she dropped into a sweet siees. A small earthquake was reported from a cemetery just outside of Lexington, Ky., and it is attributed to the turning in their graves of a generation of "Kentucky coloneis."

"SEIZE THE GOVERNMENT."

CRIES DUMA LEADER

St. Petersburg, March 29.—"I call upon you to seize the executive power," was the climax of a speech by M. Dzhaparidze, Socialist, to the duma members yesterday, in which he urged in investigation into the famina conditions.

The Socialist leader flayed the government in a manner which the second duma has not before heard. He charged the government and the Union of True Russians with being responsible for all the ills Russia is suffering. The president and the vice-president of the duma sought to restrain the Socialist deputy from "slandering the government," but the speaker continued to the swing to the interests of the government as a feet of the small taxpayers as a responsible deputy from "slandering the government," but the speaker continued to the continuent of the small taxpayers as a responsible deputy from "slandering the government," but the speaker continuent. The runners are to bring in the first news they get which will be on the straight count. If possible, there should be two or three at each voting place to bring in the news in relays. The Socialist leader flayed the government in a manner which the second duma has not before heard. He charged the government and the Union of True Russians with being responsible for all the lis Russia is suffering. The president and the vice-president of the duma sought to restrain the Socialist deputy from "slandering the government," but the speaker continued to riddle the autocracy in spite of the attempts to cut his speech short.

M. F. Dahaparidze declared that the only salvation of Russia lay in the spread of revolution and by the duma representatives seizing the executive power.

The proposition made by the Socialists for a sub-commission to investigate the famine was rejected by the government, in spite of these vigorous demunciations of its methods. Get the vote on alderman and for ma for for all parties if possible.

Those who amount to much in this world either in or out of revolutionary movements belong to the latter class. So that now while I do not feel so keemly. I am surer to act more intelligently. 'We can't reform the world in a day' is a common and true saying, but we can first reform convasives and then help to the revolutionizing of seciety through the spread of propaganda and by intelligent acts. Woman is a slave even to mest of us Socialists. She drudges at home with but few labour-saying devices and wears out herself in mental tarks and resists children, and her opportunities for large mental and artistic activity or narrowed down to almost maught tricked out like a mere plaything, to delight man's securality and little regard is paid to her real evolution. "Fine feathers make fine birds." is the axiom and law to most of that class. It is the old and n'w testament to them. And a foolish rule it is to apply to the lives of barge with brain and win power. April 2nd we are to elect a city government to administer our city affairs.

This means, we must elect men whom we can trust with our welfare, our tisppiness, and our lives. "What shall I vote for?" must and shall, therefore, be answered by us, before we vote in favor of one or the other candidate.

We have working people, bankers, real estate lords, business people, and factory owners. The working talls and the affairs of the capitalist and the affairs of the capitalist party can not be a working class party, because the interests and the affairs of the capitalist class are not the business people and factory owners. The working class, as we proved above, the business people and factory owners. The working class party, because the interests and the affairs of the capitalist class are not the business people and factory owners. The working class, as we proved above, the substincts people and factory owners. The working class party, because the interests and the affairs of the capitalist class are not the business people and factory owners. The working class party, because the interests and the affairs of the capitalist class are not the business people and factory owners. The working class party, because the interests and affairs of the capitalist class are not the business people and factory owners. The working class party, because the interests and affairs of the capitalist class are not the business people and factory owners. The working class, as we proved above.

The working agends if not for the profits, Too offer the profits to the for the profits. The work for the profits to working the not the profits and therefore the work in the profits.

The Republical parties do not not the

the business people and factory owners live on profits.

The working people are called the business people and the factory owners are not common people. This means that the bankers, the real estate lords, the business people and the factory owners are not common people. It means that we have two distinct classes of people a class of common people, the working class want to have two distinct classes of people and a class of common people, the working people, the people who are not common people, who are not work for wages, and a class of people who are not common people, who do not work for wages, and a class of people who work others for rent, interest and profits, who are capitalists, small and big.

THE TWO CLASSES. needs of the working class only. If must be a party that stands for high wages, for short hours of labor, for the

THE TWO CLASSES.

THE TWO CLASSES.

In other words, we have a capitalist class and a working class.

The capitalist class own all the land and all the houses, all the mines, all socialists opposed to BLACKthe stores and all the commodities sold. It must be a party that is opposed to in the stores, all the factories and all lockouts and blacklists, to injunctions the machines, all the railroads, tele-phones and telegraphs, all the gas and electric plants. That is, they own all the-natural and all the produced wealth. The working class own nothing. They only possess the labor power necessary to turn natural wealth into such wealth

Because all the natural wealth and all the factories and machines are owned by the capitalist class, no working man has a right to employ himself at anything to produce what he needs. He must apply for work to the capitalist class, who are the masters over this wealth, over these jobs.

The capitalist class have the power, and therefore the right, to dictate the terms under which the working class shall work. The working class must necept or reject these terms. But to reject means to starve, to freeze, to become tramps or paupers, to die and be buried as dogs.

The working class therefore, submits and works for wages. They must profederal troops by the mayors, govern ors and presidents against labor or gunizations to force them into sub-mission and crush the lives out of them mission and crush the lives out of them.
It haust be a party whose judges will
refuse to declare every demand of or
ganized labor unconstitutions. It must
be a party that will run the murderous

a party that it opposed to exploitation
and wage glavery.

and works for wages. They must pro-duce not only wages, but enough to cover all the running expenses and profits for the capitalist class. If not profits for the capitalist class. If not for these profits the capitalist class would never give you jobs. The more you produce over and above your wages, the better it is for the capitalist class. Therefore, they employ measures which will increase the profits. These measures are: low wages, long hours of labor, woman, child and prison labor etc.

CAN GOVERNMENTHE FOR ALL?
The question now arises, if the interest the capitalist class are not the asts of the working class, can a ernment administer the city se as to menefit all the citizens slike? (For, and you, the affairs of the city are the affairs of the citizens.)
Can a government protect or benefit the capitalist class without oppressing

ticians say "yes." We Socialists say 'fno."

To protect and benefit the capitalist class means to help it enforce the measures which it employs to got as high profits as possible. It means to assist them in their efforts to pay low wages, to work long hours, to employ women and children, to employ non-union labor, to use prison labor, and so on. This can not, will not and does not benefit the working class.

HOW TO HELP WORKERS.

On the other hand, to protect and benefit the working class means to help the working class to get higher and higher wages, to work shorter and shorter hours, to abolish child and prison labor, to limit woman labor and so forth. This can not and will not benefit the capitalist class.

But this is only a Socialist theory, you and the Republican and Democratic politicians say. Well, we are willing to let facts convince you.

We say, a government can protect only one class of people, and not all the classes, because their interests clash, that is, what is good for one class of people is not good for the other class of people. This clash very often leads to fights. When there is a fight between these classes only one of them can win. This success depends upon the stand the government takes.

On whose side did we find the city government when the teamsters went on strike two years ago?

DUNNE AND THE TEAMSTERS.

Dunne, the radical Democrat, the reformer, the good and honest man, the laborer's friend, ordered the city police, force to serve as guides for the scal drivers of the capitalist class, and as protectors of the thugs and toughs imported to break the strike and the labor organizations.

Peabedy, a Republican governor, perpetrated all imaginable atroities upon the striking miners in Colorado. Stemmenburg, Democratie governor did the same with the striking miners in Idaho. Pattison Democratie governor of Penasylvania, sent milita to Homestend to

## In Case of Strike

By Joseph Medill Patterson

What kind of a man would you like to have in the mayor's chair? If you are an employer, you would like a mayor who will help you to break any strike which might occur in your business, wouldn't

It would be money in your pocket to crush the strike quickly and thoroughly. And besides if you are an employer, it would be money in your pocket to have such a mayor in office. The very fact that the mayor was known to favor the employer's side in such controversies as might arise would prevent the unions from getting too "fresh." Wage workers would be apt to take what they were offered without andue resistance. And if they did strike, the strike would be likely to fail, with the result that the unions would be greatly weakened. Then you could pay your men less and work them longer.

One big reason why all the big employers in Chicago have lined ap for Busse for mayor is because they know just where he stands on the strike proposition. That is one big reason why they are putting up his big campaign fund.

The Democrats have renominated Dunne on exactly the same platform as last time-IMMEDIATE municipal ownership. It seems funny that after all his fine promises of two years ago, people should still be squeezed like lemons into the cars. However, we started to talk about strikes and unions, not street cars.

Suppose Dunne is re-elected, and suppose there is another big strike-what would Dunne do?

WELL, WHAT DID HE DO IN THE TEAMSTERS' STRIKE? We are not here discussing the merits or the wisdom of that strike Beyond pointing out that the employers did things worse than anything

he men were charged with, we shall dismiss that phase of the question The teamsters' strike came, and what did Dunne do about it? Did te put the police on the wagons? He did.

Did the police show the negro strike-breakers, imported from the outh the way about the streets of Chicago? They did.

Would the imported scabs, both white and negro, have been able to leliver goods in a city entirely strange to them, unless the police were itting beside them, pointing out the way? They would not.

Then the police were practically strike breakers, themselves? Yes. Why? BECAUSE SUCH WERE THE ORDERS OF MAYOR

What was Dunne's excuse for thus using his power to break the eamsters' strike? He says he was a sworn officer of the law and that herefore it was his duty impartially to enforce all the laws as he found

That sounds like courageous talk. In many ways you cannot help dure of capitalist society. dmiring a man who talks like that-AND STICKS TO IT.

But Dunne didn't square his deeds with his words. In the first lace no law required him to put the police on the wagons. In doing hat he went beyond the law in opposing the strike.

Just as he enforced more than the full law against the men, so Iso he enforced less than the full law against the employers.

Every one of the big employers involved in the teamsters' strike ras violating the laws of Illinois and the ordinances of Chicago every ton of the president-should be perfectlay of the strike. Yet Dunne made no attempts to punish THEM for ly, no matter what hands they may the assembly was absolutely wrong. aw-breaking. He was too busy breaking the strike for that.

What laws were the employers violating? None of them had a cept Mr. Roosevelt's square deal-they uilding which conformed to the building laws. He would urge the council to pass an ordinance forbidding the nportation of strike breakers into Chicago.

In case of a strike, he would not, to be sure, allow violence and disrder; but he would certainly do all he legally could to discourage scabs. and the mayor has immense LEGAL power to discourage scabs. Among ther things he could prevent them being herded together in close and

## UOTES THAT COUNT

No matter how many votes may be thrown away by workingmen on Democratic or Republican tickets; no matter whether Dunne or Busse is the next mayor of Chicago; no matter for whom the cheers resound on next Tuesday evening, the only ballots that will constitute evidence of the intelligence of the workers who cast them will be those marked for the Socialist party.

The votes that will be marked for the union printer, George Koop, will be the only ones that will count for organized labor. They will be the only ones that will be studied by the Employers' Association next Wednesday morning to determine to what extent their employes have expressed at the polls the rebellion they have proclaimed in their unions and in the shop during the remainder of the year.

The votes that are cast for the Socialist party will be the only ones that will really count against the traction steal. This will not be alone, nor principally, because each one will be accompanied with a "NO" on the little ballot. Those "NOES" might be unanimous and do little to check franchise grabbing. But every Socialist vote is a warning which tells the advancing gang of street stealers that their booty will not be permitted to remain in their hands much longer, even if they get it within their grasp.

Every vote that is cast for the Socialist Party is a deadly blow at the whole system of exploitation. It is a protest against the sweatshop, child labor and the whole crushing system by which murcle and brain are turned into profits.

The votes for the Socialist party are the only votes that will really be cast in this election against bossism. This is because the Socialist party is the only party that has adopted a positive and permanent cure

for the political boss, by making the rank and file the masters. Every vote not cast for the Socialist party is a vote for capitalism either large or small. It is a vote for the clubbing of union men, the poisoning of milk, the disruption of unions, the exploiting of children, the importation of scabs, the murder of millions in mine, mill, factory and ralroad.

IF YOU WANT THESE THINGS VOTE FOR THEM AND YOU WILL GET THEM.

WOULD YOU RATHER VOTE FOR THEM AND GET THEM, OR VOTE AGAINST THEM, EVEN IF NOT IN A MAJORITY?

Let the capitalist class vote for Busse and Dunne. They are the candidates of that class.

Let the working class vote for its candidate-GEORGE KOOP.
