Thus far, the freeze has been an orderly one; for the most part, the steel trust has not made any great news. The only news that has been made has been in the form of an announcement that the Steel Trust was going to stop the manufacture of steel products on Saturday night and resume them on Monday morning. This has been done in order to make way for the new steel trust which is being formed, and the only news that has been made has been in the form of an announcement that the Steel Trust was going to stop the manufacture of steel products on Saturday night and resume them on Monday morning. NO SEPARATE WOMAN QUESTION

WOMAN
Her Place in the Social Question of Today Defined.

In the struggle of the workers for the fulfillment of their rights in the political, social, and industrial spheres, the position of the workers' movement in regard to the question of woman's rights is of first importance. The struggle is still far from being completed, and the success of the workers' movement depends in a large measure upon the success of the women's movement.

The question of woman's rights is not simply a question of individual rights, but is a question of social justice, of the right of every individual to share in the fruits of the common labor.

The struggle for woman's rights is not only a struggle for individual rights, but is a struggle for social justice, for the right of every individual to share in the fruits of the common labor.

The Socialist Labor Party of the United States.

Platform of Socialist Labor Party.

Chicago Municipal Campaign of 1899.

IMMEDIATE DEMANDS.

The Socialist Labor Party of the United States demands - in the spirit of class solidarity - and in the interests of the laboring classes throughout the world - a new and complete political organization of the laboring masses. This is the only true and effective means of realizing the benefits of industrial democracy.

The Socialists revere the right of free and complete expression of opinion among all the classes of society. The laborer is entitled to an equal voice with the capitalist. The movement of the working class is one of the most potent forces in the social and political life of the world. It is the most revolutionary of all political movements.
