BEAUTIFUL IMPOSSIBLE PICTURES

How the Progress of Industry, Science, and Other Capitalist Virtues in the Realm of Thought is Working for Your Good.

-A Capitalist View.

It is very satisfactory to know that the United States is fast approaching the goal you have set yourself, and that you are steadily producing the rifle-iron, the railroad, and the steamship, which are destined to make the world a safer, more comfortable, and more prosperous place to live in. Your achievements are extraordinary, and it is to be hoped that your efforts will continue unabated.

The labor-fights of Pittsburgh, Pennsylvania, are currently taking place up to date in full swing in connection with the steel industry. The strike is not yet settled, but it is hoped that a settlement will be reached.

CAPITALIST METHODS.

Private Eyewitnesses Maintained by the Workers Who Witnessed the Insurrection.

Even if their lives are in danger, workers can free themselves and society, and regain their rights. The following is a report of a recent workers' strike in the coal mining industry.

The Graduates.

Workers from every part of the country came to the city, and they all knew that they had just been graduated from the university of life. When they returned to their jobs, they were prepared to take on the responsibilities of adult life. Workers who have obtained a degree in the university of life are, in a sense, graduates of the working class. They have the right to be treated with respect.

The Smith Park Communists.

Workers have passed a resolution forbidding the use of the word "capitalist" in the labor movement. It is a little hard to understand why.

The Working Class.

The working class is often regarded as a group that is not very intelligent. However, the working class has a great deal of common sense and is able to solve the problems it faces.

MORALITY.

Chattel Slavery to Be Re-established in Hawaii.

It is an old story to those who have little patience with modern methods and institutions. It is also the story of how laborers are treated, and how the working class is exploited. What would happen if society were to return to a state of nature?

Single Tax vs. Socialism
A Comparative Discussion
by E. M. SIMONS

The Single Tax having been created by one of the earliest philosophers, a philosopher for a student of philosophy, is not something that we can safely ignore. The doctrine of the Single Tax is based on the idea that there should be a uniform tax on land, and not on personal property.

What is the advantage of having a uniform tax on land? The Single Tax advocates see this as a way to reduce the cost of living, which they believe is too high due to the high cost of land.

The Single Tax advocates argue that a uniform tax on land would reduce speculation, which they believe is one of the main causes of high land values. They believe that a uniform tax on land would make land more affordable for everyone, which would reduce the cost of living.

On the other hand, the advocates of Socialism believe that the problem of high land values is caused by the concentration of land in the hands of a few, and that a uniform tax on land would not solve the problem. They believe that a uniform tax on land would not make land more affordable for everyone, and that it would not reduce speculation.

In conclusion, the Single Tax advocates believe that a uniform tax on land would reduce the cost of living, while the Socialists believe that a uniform tax on land would not solve the problem of high land values.

The Socialist Labor Party of the United States

PLATF0RM

The Socialist Labor Party of the United States is a 

independent working class political party, 

recognized by the state authorities, and 

affiliated with the International Socialist 

League. It was formed in New York City in 

1897.

We believe in

1. The fundamental rights of the working class to 

place the means of 

production in their hands. 

2. The organization of the working class into 

united economic 

cooperatives. 

3. The establishment of a 

socialist state, 

under 

which the working 

class will 

rule. 

4. The development of 

international socialism, 

5. The right of 

every man and 

woman to 

vote, 

and 

6. The abolition of the 

state and its 

replacement by 

a 

socialist 

state.

Immediate Demands

1. The working class must

secure an immediate

increase in its wages

and a shorter

working day,

2. The working class must

secure the immediate

abolition of all

forms of coercion

in the workplace,

3. The working class must

secure the immediate

abolition of all

forms of coercion

in the home,

4. The working class must

secure the immediate

abolition of all

forms of coercion
