LEAGUE OF PLUNDER
A Union of English and American Explorers.

SOME CLEAR-CUT CAPITALISM
An Example of the War the Capitalists Use Their Government in a Fictitious Transaction.

To those who have not yet gained a grasp of the "Free Trade" idea, the following is given for your instruction. The China government, it is said, has given a subsidy of a million dollars to the American government to enable it to buy up the Chinese government. No such arrangement has ever been made before. The "Free Trade" idea is a patent fraud, and the American government has always been the buyer and China the seller.

THE PARTY CRISIS
Resolution of Boston Chinese Relaters
Chicago, July 25, 1895.

The resolution of the Boston Chinese Relations, while it does not specifically state the position of the party on the question of the Conciliation of the United States and China, indicates the general attitude of the party and its willingness to cooperate with the United States government in the interest of the Chinese people.

BAN ON "FREE ORPHANS"
Krupa in Springfield for Trial

The government has been petitioned by laborers to extend the ban on "free orphans," which has been in force for some time, and to prohibit the sale of such orphans to American citizens.

THE WORKERS' CALL
CHICAGO, ILL., JULY 27, 1895.

NO MORE FREE SPEECH
MANILA CENSORSHIP LOCAL CENSORSHIP
Suppression of All Facts Socialist Talker Barred

The American public to be here in ignorance of the situation in the Philippines.

FOOLING SYRACUSE LABORERS
Attempts to Defraud the Workers With Alfred Benedict for the "True Workers" Party--Playing With Fire.

The Saratoga River Telegram was published in the Syracuse, N.Y., paper under the above title in the "Workers' Club" column. The writer of the article did not even attempt to study the facts, and his story is a complete fabrication. The Workers' Club has not even attempted to publish an article in opposition to the Workers' Club, and the Saratoga River Telegram is not a genuine newspaper.

REGULATED TRUSTS
Some Equitable Examples of Capitalist Policies

The Workingmen of all countries unite! You have nothing to lose but your chains: you have a world to gain.

Cupids old last week 12.90-loll edition.

THE PARENT SITUATION.

As all our readers know we have been in the management of that paper for the publication of all parties of capitalist sympathisers, but this week’s issue of the Workers’ Call was rather the affair of its own editor, as the paper has been put out for the benefit of the working class. The parents of our youth are a burden to be borne, not a service to be rendered, and the paper has been put out for the benefit of the working class. The parents of our youth are a burden to be borne, not a service to be rendered, and the paper has been put out for the benefit of the working class.

The SNAP SHOTS BY THE WAY.

The Chicago State had an article the other day which read: "The present is the great era of the working class. The working class is now the only class that can save the country. The working class is now the only class that can save the country. The working class is now the only class that can save the country." The CHICAGO STATE.

THE METHODS OF ACTIONS.

One of the most important of the methods is the use of the press. The press is the work of the workers, and the press is the work of the workers, and the press is the work of the workers. The press is the work of the workers, and the press is the work of the workers, and the press is the work of the workers.

The following is taken from a long statement in a capitalist paper showing the methods of the working class in America today.

CRAMP CANCELLING.

Some evils continue brought out by the following statement. There are thousands of such cases, and the press is the work of the workers, and the press is the work of the workers, and the press is the work of the workers.

BUNDLE CODES.

We will accept attention in the following: 

Bunch bundle of 100 or more, 10 cents.

All correspondence, save notes, is corresponded with at the above rates.
