A Crisis Approaching in the Labor World of Chicago.

HARD STRUGGLE IN SIGHT.

Host of a Change in Tactics and of All Power if the Unions to be Preserved.

There is a general feeling on every hand that the labor question is coming to a crisis in Chicago. If anything, the struggle in that city has been more violent than in any other place. Day after day we have seen the streetcar drivers and the roadmen at the end of their term of three years acting as if a battle was about to break out. The streetcar drivers have been ordered to go on strike, and the roadmen have been ordered to stay away.

In Chicago there has been a great deal of labor unrest. The railroad workers have been on strike for several weeks. The dockers have been on strike for a month. The miners have been on strike for two months. The machinists have been on strike for three months.

The railroad men have been on strike for three weeks. They have been on strike longer than any other group. They have been on strike longer than the streetcar men. They have been on strike longer than the dockers.

The railroad men have been on strike longer than any other group. They have been on strike longer than the streetcar men. They have been on strike longer than the dockers.

*FOREGOINx NEWS.

The special meeting of the British Labor Party was held on January 31. It was called for the purpose of deciding whether the party should adopt the platform of the British Socialists, with the exception of the anti-war clause. The meeting was addressed by Mr. H. H. Asquith, who spoke on the subject of the war and its causes. He said that the war was a result of the capitalist system and that it was necessary to overthrow it. The meeting was adjourned until February 7.

The situation in China is still uncertain. The Chinese government is still in control, but there is a possibility of a revolution. The Chinese Communist Party is still active, and there is a possibility of a revolutionary movement.

*WOMEN'S DEPARTMENT.

All women are equally important in the struggle for socialism. They should participate in all aspects of the movement, from the factory floor to the classrooms. The struggle is not only for the workers, but for all people, and women must be at the forefront of the fight.

*GERMANY.

In Germany, the workers' government has been established. The workers' councils have been given full power to make decisions and to implement the workers' program. The government is committed to the principles of democracy and workers' control, and it is determined to bring about a socialist society.

*LEITLER.

The situation in the United States is still tense. The workers' unions are continuing their struggle against the employers, and the government is trying to find a solution to the crisis. The workers are demanding better working conditions and higher wages, and they are determined to fight for their rights.

In closing, let us remember that the struggle for socialism is not only for the workers, but for all people. We must work together to bring about a better world for all.

*REST FOR THE FIREFIEM.

The firemen have been tireless in their efforts to save lives and property. They have worked long hours and have been exposed to danger. We must support them and show our appreciation.

*CONSUMERS LEAGUE.

The Consumer League is an organization that works to protect the rights of consumers. They fight against monopolies and big business, and they work to make sure that people have access to safe and quality products. We must support them and their work.

In the end, let us remember that the struggle for socialism is not only for the workers, but for all people. We must work together to bring about a better world for all.
