Building Trades Bosses Plan Use of Apprentices as a Tool to Kill Organized Labor Control in Trade

By MAX SHACHTMAN.

CHICAGO.—Building Trades Bosses are calling attention being paid to the institution and control of apprentices and are planning to make a determined attack on the use of the same in the building trades. The Young Workers League, on the other hand, is planning to use the apprentices as a tool to help the organized labor movement.

**The Flag of Youth**

**By WILLIAM F. BRÜNN**

When the news of another victory sent the Yanks valley the youth of the country, one of them, the Y.M.C.A., tried to spread self-confidence in the minds of the people. The end of the war is nearer than many of us have realized, but it is not yet clear what will happen. International Liebknecht Day

Five years ago, on January 11, 1916, Karl Liebknecht and Rosa Luxemburg were executed by order of the military govern- ment of the Central Powers. Karl Liebknecht and Rosa Luxemburg were leaders of the revolutionary movement which won the German revolution of 1918.

The Liebknecht-Luxemburg movement was a direct result of the failure of the Social Democratic Party of Germany to carry through the program of revolution which had been promised by the Social Democrats in the program of the Social Democratic Party of Germany in 1918.

On With the Investigations!

The State Department of Public Instruction in Michigan an- nounced on March 1 that 12,000 of the 15,000 teachers in Michigan public schools have been investigated by the Michigan State Teachers' Association.

And so, while the children of the workers continue to labor and to starve, the employers and the employers' organizations continue to live in luxury and to increase their wealth at the expense of the workers. The employers' organizations continue to increase their wealth at the expense of the workers. The employers' organizations continue to increase their wealth at the expense of the workers. The employers' organizations continue to increase their wealth at the expense of the workers. The employers' organizations continue to increase their wealth at the expense of the workers.

These workers are not free men, but they are free to live according to the laws of the state. They are free to live according to the laws of the state. They are free to live according to the laws of the state. They are free to live according to the laws of the state. They are free to live according to the laws of the state.

A Relief Diet-Exploitation

Tens of thousands of children and young people taken from their families and placed in the military camps are being exploited as wage slaves in the new labor camps. The Young Worker has been investigating the conditions of the young people in the new labor camps, and we find that they are being subjected to the most brutal exploitation.
