DAUGHTERY, "DEPT. OF JUSTICE," AS CROOKED AS REST

By CHARLES WITTEN

WASHINGTON—Young Secretary of Justice Daughtery, who has recently been discovered to be involved in some shenanigans at the State Department, has been arrested by the Treasury Department. The Treasury Department has released the following statement:

"The Treasury Department has today arrested Daughtery for embezzlement of government funds. The arrest was made after a thorough investigation by the Treasury Department's Special Investigation Unit."
FASCIST HORRORS TOLD BY MEXICAN YOUTH COMMUNIST

By ELLA G. WOLFE
News correspondent of the International News Service

BENITO MUJICA GARCIA, 19, the leader of the Communist Youth of Mexico, yesterday arrived here from Mexico. He is the son of Benito, the author of the revolutionary poem that inspired the new generation of Mexican patriots.

Mr. Garcia told of the sufferings of the workers and peasants of Mexico. He spoke of the massacre of Easter Sunday, when 50 workers were killed by the police. He said that 1,000 workers had been arrested and that 10,000 were being held in jail.

Mr. Garcia said that the workers and peasants are fighting for their rights. He said that the workers are organized into unions and that they are working for better wages and shorter hours.

The workers are also fighting for the right to vote.

This is the story of the strong and sturdy youth of Mexico. The youth of Mexico are fighting for their rights. They are fighting for their freedom. The workers are fighting for their dignity. They are fighting for their future. They are fighting for their country.

The workers are the future of Mexico.

WORKERS' VICTORY IS THEIRS!

EMANCIPATION PROCLAMATION—A DREAM

By BENJAMIN P. CHISHOLM

It is eight years ago that the Emancipation Proclamation was signed. This was the death blow of slavery in the U.S. It was a new day for the Negro, a new era in the history of the United States. It was a time of hope and promise for the future.

Today, the Negro stands at the crossroads of history, facing a new era in the history of the United States. He is called upon to choose between two roads: the road of freedom or the road of slavery.

He must choose wisely.

**The Robots Are Coming!!**

**What Is A Shop Nucleus?**

**For the Reader:**

The word "nucleus" is derived from the Latin word "nucleus," which means "a center," "a core," or "a kernel." A shop nucleus is essentially a group of workers who are dedicated to organizing and improving their workplace. They work together to address issues, improve working conditions, and promote a sense of community within the workplace. The nucleus is typically made up of a small group of dedicated individuals who are willing to take on leadership roles and actively engage in the process of change.

**How to Form A Shop Nucleus**

**On the Building Up of Nuclei and Upon Their Practical Work:**

The nucleus of a shop is the basic unit of a union organization. It is important to note that the nucleus is not always a group of workers who are officially organized under the banner of a union. Instead, it can be a group of workers who are actively working to create a union within their workplace.

A nucleus is formed by a group of workers who are interested in organizing a union within their workplace. The nucleus members are usually the first to come together and discuss the need for a union and the benefits it could bring to the workplace.

The nucleus members then begin to work together to create a plan for organizing a union. This plan includes identifying potential union members, developing a strategy for organizing, and preparing to negotiate with management.

The nucleus members are responsible for recruiting new members to join the union and for keeping the union organized and active. They are also responsible for ensuring that the union's goals are met.

In summary, a nucleus is a group of workers who are dedicated to creating a union within their workplace. They work together to address issues, improve working conditions, and promote a sense of community within the workplace.

My Flight From Siberia—By Leon Trotsky

By Leon Trotsky

Russia was passing through the darkest period of its long struggle for liberation. The Czarist Russian Government, which had been overthrown in 1917, was now in its last stages of decay. The Bolshevik Revolution, which had seized power in the capital, Moscow, and in Leningrad, was spreading throughout the country. The Czarist government, which had long been the symbol of reaction and oppression, was crumbling under the weight of the popular uprising.

The Bolshevik Revolution was marked by a series of events that have made it one of the most significant events in world history. The revolution was characterized by a sharp class struggle, in which the working class and the peasantry fought against the ruling class of the Czarist monarchy. The revolution was also marked by the rise of a new political party, the Bolsheviks, which became the dominant force in the revolution.

Leon Trotsky was a key figure in the Bolshevik Party and played a central role in the revolution. He was a member of the Bolshevik Central Committee and was one of the leaders of the Red Army.

In this article, Trotsky describes his flight from Siberia, where he had been exiled by the Czarist government. He describes the difficulties he faced in making his way to the capital, Moscow, and the dangers he encountered along the way.

The story is a fascinating one, filled with drama and intrigue. It is a story of perseverance and courage, of the struggle for freedom and the fight against oppression. It is a story that will inspire and enlighten readers of all ages.
