YOUNG MINERS!

The Young Workers League Calls On Young Miners of America To Join and Fight Their Rotten Conditions Of Life and False Leaders!

This is a special issue of The Young Worker and a large part of the proceeds will be turned over to the miners of the country and what our program for these problems is, what the program of the Young Workers League of America presents to the miners, and what we believe the workers are entitled to, and the worker who does not get all the things they produce but is forced to give a fair share to the bosses.

What does this mean? The American miner can produce more than twice as much coal as the British miner in a given amount of time, if he has enough coal to produce in his country. While the coal operators of this country make milk money, the working miner is paid a pittance. The workers of this country live in Palm Beach, at Monte Carlo, in their palaces and yachts, the miners get about $300 a year, which is the lowest standard of living as computed by government experts. While the wages of the ablest of the coal miners give part to their pettoles, the miners live in a tumbledown shack of a house.

It is no wonder as long as the size of a miner is small enough to be a breaker boy or a breaker, the father of the family is forced to go down into mine work in order to earn enough for his family, and thousands of young miners are always being reared for the profits of the fat bosses—by the bosses through the house with their pitiful wages.

This is only part of the picture of the life of the young miner under the present system.

This system is based on the power of the rich. It is why they debase the miners and keep them down. The miners always get the last to fill the places of those who are gone. That is why the mines are not safe for the workers to fill in. That is why the bosses buy up the corrupt mine inspectors. That is why we have the strike. We are working three and six months on six days to date we can mark our profit in the workers and the destruction of the working class, is caused by the working class itself. The miners are paid for labor of capitalism profit. That is why this young miner to mine.

Your boss thinks so. If you are killed in a mine explosion which is 70% of all the men killed, the company taking out the coal, the boss don't pay: a thief: there are hundreds of other workers, do get killed. A miner has only to pretend in profit and not in life and happiness for the workers.

When these conditions become intolerable and you go no on strike, this is what you get; it is what the miners get, and it is what the workers get. The miners are not fighting against their own class, are not working against the coal company, but are fighting against the system of capitalism. It is the same as the farmers who, instead of fighting the railroad and the big companies, are fighting against the system of capitalism and the system of the American workers.

The miners are fighting to get the right to vote on the ballot of the miners. It is the same as the farmers who, instead of fighting the railroad and the big companies, are fighting against the system of capitalism. It is the same as the farmers who, instead of fighting the railroad and the big companies, are fighting against the system of capitalism.

When you take up the fight, it is the fight of every man, woman and child to get the right to vote on the ballot of the miners. It is the same as the farmers who, instead of fighting the railroad and the big companies, are fighting against the system of capitalism.

The miners are fighting to get the right to vote on the ballot of the miners. It is the same as the farmers who, instead of fighting the railroad and the big companies, are fighting against the system of capitalism. It is the same as the farmers who, instead of fighting the railroad and the big companies, are fighting against the system of capitalism.
