Y. W. L. HAS ONLY PROGRAM

NEW YORK CITY—The press has been so lavish in its praise of the young women of the city that many people are led to believe that the entire female population of the city is a part of the organization.

"No such thing," says the Y. W. L. "We have only a small fraction of the young women of the city. Our organization is limited to those who are interested in the work of social service and who are willing to work for the betterment of the conditions of the young women of the city."

Another Gusnheim.

The Gusnheim is on the one hand at work in the streets and on the other hand is working on the streets. The Gusnheim is a part of the social service work of the city, and its work is largely with the young women who are in need of sociological help.

Aims of the Young Communist League

By V. I. LENIN

The Young Communist League (YCL) is a governmental program that aims to bring the students and young people of the country into the movement of the working class and the labor movement. It is a part of the Communist Party of the United States of America and is dedicated to the goal of creating a socialist society.

The YCL is divided into local chapters, each with a specific area of focus. These chapters work to organize and mobilize young people to participate in political and social action. The YCL's primary focus is on educating young people about the history and principles of socialism, and on creating a network of young leaders who can work towards the establishment of a socialist society.

The YCL's program includes a variety of activities, such as political rallies, workshops, and educational events. These activities are designed to educate young people about the history and principles of socialism, and to engage them in political and social action.

The YCL is a powerful force in the American political landscape, and is committed to creating a socialist society. It is a key part of the broader movement for justice and equality, and is dedicated to working towards a better world for all people.

The YCL is a vibrant and dynamic organization, and welcomes all young people who are interested in learning more about the principles of socialism and in working towards a better world. Whether you are just starting to explore the ideas of socialism, or are already an active member of the movement, the YCL is a great place to be.
