"BOY SCOUTS AN ARMY IN PREPARATION"—Cолодий

NEW YORK CITY—In a letter read before the opening session of the fifteen annual meeting of American Boy Scouts, a member of the Boy Scouts of America called on that organization as "an army of the country's youth."

"Of the 43,000,000 members there are 100,000 the organization is in army in preparation for the highest civil duties," said Wyvel. This is merely half of the truth. What the old dad means is that it is an army in preparation to be sacrificed for the profits of the men who are running Cолодий and congress in the next world for which American imperialism is so feverishly working.

THE ARMY IN PREPARATION

U.S. SOLDIERS UNION SEEEN

Treat Privates Badly

SCHOFIELD BARRACKS, HAWAII—A regular plan for an American soldiers union, and workers, and laborers has just been formed for the soldiers of the U.S. Army in Hawaii. This plan, which seems directly on a peak of the organization of the Army and its camps and bases, is the only one of its kind in the country. The Adventures of a Louse

It had just taken us a few days to adjust to the idea of the louse being present in the classroom during the majority of the school day. It was a strange feeling to have a friend who was not a part of our immediate social circle. However, it was not long before we realized that our new friend was not just any ordinary louse. He was a special one, with a unique ability to communicate with us through a special device.

"He has a special power." said the louse, as he tapped a small button on his device.

We were amazed. This was the first time we had ever met a louse that could actually talk to us. It was a thrilling experience, and we were eager to learn more about this special louse.

LEINEN’S CORNER

Native and quite inseparable person joining the world of work, Leinen has been a constant reminder of the importance of cooperation and communication in the workplace. Despite the challenges we face, it is important to have open and honest communication to ensure our success.

Boys in Chicago Are Handcuffed, Bosses Say

50,000 boys in Chicago, more than half of the city’s 100,000 boys, are the victims of poverty, hunger, and disease. The boys are being robbed of their childhood by the conditions in which they live.

The big boys are getting a big share of the blame in the confusion. The solution of the working class is in the hands of the masses themselves. They want stronger unions, better pay, and better working conditions. They want the whole thing fixed.

On the other side, the bosses say that the boys are the problem. They blame the condition of the boys on the parents. They want the parents to be more responsible for their children. They want the boys to work harder, to be more productive and responsible.

The bosses say that the boys are the problem. They want the parents to be more responsible for their children. They want the boys to work harder, to be more productive and responsible.

A Letter from The Y. C. I. to The American League
On the End of The Fractional Struggle

TO THE YOUNG WORKERS

Dear Comrades:

The T. C. C. I. has adopted a policy which it has believed for a long time is the only real answer to the question which it has posed itself. The policy is for the Communist movement of the West to merge with the American Socialist League as a whole. The question of the League's future in the fraction of the socialist organization, in every line of activity, has been solved by the character of a fraction.

**IN THE STREETS**

Dear Comrade:

I was6ed to the Local Secretary of the Chicago Federation of Labor by many of their members who have been active in the strike for the past few weeks. They feel that the strike is coming to an end and that a new period of struggle will be begun soon.

They asked me to write to the Young Worker to let you know what is happening in the strike.

I am glad to say that the strike is coming to an end. The workers have been fighting hard and are determined to win.

Yours sincerely,
