STAND BY THE SOVIETS! HANDS OFF CHINA!

To All Young Workers, Soldiers and Sailors!

The rulers of this country are joining hands solidly in preparation for a new world war! Again the young and old workers, the sons and daughters of the toilers of the world, are feeling the brunt of the struggle of the capitalists and the imperialists at their wits' ends in an attempt to drive the nations of the East into the war.

The hyper-capitalist United States is building up the abolition of the war. But militarism is evident when we realize that the imperialism of the United States is shooting down Chinese resistance. We must be vigilant on this question. That is why a new world war is beginning to be felt not only in the working world but in the whole world. It is the duty of every young worker to join the Communist Party of the United States and to work for the destruction of the imperialism of the United States in order to save the peace of the world.

Everywhere the workers and youth are fighting back. The best example is in the coming war which is a struggle for the capture of给你们 by the United States. The United States is said to be in the position of the British imperialism, which is a leading country of the world. The United States is said to be in the position of the British imperialism, which is a leading country of the world.

The workers and youth of the world who fight back are being supported by the workers of all the capitalist countries. The working class of the world is uniting in their struggle against the imperialism of the United States. The working class of the world is uniting in their struggle against the imperialism of the United States.

HARTFORD LORDS FEAR THE TRUTH

CONTINUE TO SELL "Y. W."

HARTFORD, Conn.—The bosses of Hartford’s ten largest department stores are using their influence to make sure that the workers of the state are not disturbed by the workers of the nation. This was shown when some of the city’s large department store owners met on Monday to discuss the situation. "We are not going to allow any disturbance of the peace in our stores," one of the owners said. "We have always been willing to co-operate with the state authorities in any way that we can." The workers are not only concerned about the strike, but also about the possibility of violence. They are demanding that the police be present in the stores at all times.
