Young Worker Expelled from Military Training Camp for Opposing Scab Education

CARP GUSTER Michigan—Joseph Plotkin has been expelled from the Citizen's Military Training Camp at the request of the Michigan Federation of Labor. Plotkin was arrested at the University of Michigan as a result of his refusal to answer a questionnaire which was purported to be a test of loyalty to the United States. The questionnaire was administered by the Michigan Federation of Labor, which is an affiliate of the American Federation of Labor. Plotkin was expelled from the camp because he was alleged to be a member of the Communist party and for “lack of character.” Plotkin denied the charges and stated that he believed in the cause of the universe but that “false testimony” was going too far.

Recruit Tells How Plotkin Was Expelled

Plotkin was one of the 10 men who were arrested at the University of Michigan as a result of a demonstration against the Citizen's Military Training Camp. Plotkin was the only one of the 10 men who was not a member of the Communist party. Plotkin stated that he was expelled from the camp because he was alleged to be a member of the Communist party and for “lack of character.” Plotkin denied the charges and stated that he believed in the cause of the universe but that “false testimony” was going too far.

HOW YOUNG COMMUNISTS FIGHT WAR

Call to Fratricide—Many Arrests

On date 30 Russian Communist officials were arrested

in Paris on charges of espionage and treason. The

case has not been made public, however, it is

reported that the officials were members of the

Communist Party of France and had been

working for the German spy ring known as

"Landsberg." One of the accused, George Dore, is

a prominent figure in the Party and is said to have

been involved in many espionage activities.

It is believed that the arrests were made

in response to information received from agents

working for the Allies.

The Moscow government has denounced the

arrests as an act of war and has called for the

immediate release of all political prisoners.

The Russian press has also called for the

immediate withdrawal of all foreign troops from

Russian soil.

The German government has denied any

knowledge of the arrests and has stated that it will

not comment on the matter.

In the meantime, the war continues with

little change in the front lines.

A Speech by Doriot

We give below portions of a speech delivered by

Meunier, leader of the French Communist Party,

on May 17, 1939. It is a fine example of the way

in which the Communists are attempting to

incite the French people to support the war

effort.

"The French people must realize that the war

is in their interest. They must be united in

support of the government and the military.

The French people must be willing to make

sacrifices to win the war."

"The French people must understand that

the war is necessary for the defense of their

country and the world."

"The French people must support the

Communist Party and its leaders in their

efforts to mobilize the French people for the

war effort."

"The French people must not be misled by

the enemies of the government, who are

trying to divide the French people and

weaken their resolve."

"The French people must be prepared to

make sacrifices, both on the home front and

on the battlefront."

"The French people must be proud of their

country and their military and continue to

support the government and the military in

their efforts to win the war."

The speech concludes with a call for

French unity and determination in the face of

the war.

Zeigler Miners on Trial

Four miners from the Zeigler Coal Company in

Illinois have been arrested and charged with

violating the labor laws.

The miners, who are members of the United

Workers Union, have been accused of striking

in violation of a court order.

The miners have denied the charges and

claim that they were only trying to improve their

working conditions.

The court has set a date for the trial, and

the miners are expected to enter a plea of not

guilty.

The trial will be followed closely by labor

leaders, who hope to use it as an opportunity to

fight for the miners' rights.

event of the year: The First World War. The war had profound effects on the

French society, economy, and culture. It is estimated that over 1.3 million

French soldiers died during the war. The war also led to significant

political changes, including the establishment of the Fourth Republic in

1940.

Another article is about the French economy, which was severely

affected by the war. The war led to shortages of food and

resources, and the French economy struggled to recover.

The last article in the issue is about the French culture, which

was also affected by the war. The war led to a change in

the way French culture was perceived, and there was a shift

towards a more conservative and nationalistic approach.

Overall, the issue provides a comprehensive look at the

impact of the First World War on French society, economy,

and culture, and is a valuable resource for those

interested in the history of France.

The next issue of the workers monthly will be

published in September and will feature articles on

the impact of the Second World War on French society,

economy, and culture. The issue will also include

articles on the French resistance during the war,

the role of women in the war, and the effects of

the war on French art and literature.

**CLEAR THE WAY!**

(Dedicated to the Young Communists)

By CHARLES ASHLEY

Clear the way, you verrmch! We're coming!
Back against the sides of houses!
Back with you into the adjacent alleys!
Sprint your feet quickly through the mud.
As you run,
Black-coated verrmch!
Run with your little stary feet quickly.
When you hear us.

We're coming,
Yes, there's nothing we can't do, this isn't the way in?
What new lighting is it?
What's interesting about it?

Setting up the camps.

Come over the edge of the hills.
Like we're running.
Like we don't mean any harm.
Nothing to worry about.

Come over the edge of the hills.

From the heard plains of the great plains.
Listen:

"We go to pay a visit to the city, a visit, you see, to the city, for the first time. We will be a part of the city."

The city is alive with energy.
