"Peace" in Locarno
—War In Balkans

BALKANS, CHINA, AFRICA AND NEAR EAST BELIEVE "PEACE"

Recently the peace conference of Locarno cleared the way for the" peace" in Europe with the signing of the Locarno Pact. Peace, however, has been an illusion and a farce. Peace is not for the Balkans. The Locarno Pact is nothing but a new weapon in the hands of the dictators to make the world more peaceful for them. There is no "peace" in the world. The Locarno Pact will make the world more peaceful for the dictators, but it will bring more suffering for the people. The Locarno Pact will make the world more peaceful for the dictators, but it will bring more suffering for the people.

TOOHEY AND RED FREE FROM JAIL

Labour Members, Nationalist, Under the Threshold in Aniethrace

DEMAND 100 PER CENT STRIKE

ALL-LABOUR

The Labour Party has announced a demand for a 100 per cent strike, with the slogan "Strike now! Strike hard! Strike long!". The party has called for a strike to demand the release of all political prisoners and to break the power of the employers. CHRISTIAN SCIENTISTS REFUSE TO BURY KID WORKER

FATHER—BOSTON—Newsboys' strike continued in The Boston Globe last night. The newspaper strike, which started Thursday, is the first major strike in the city since 1910. The newsboys are demanding an increase in their pay and better working conditions.

CAPITALISM

ONE SIDE

In the House of Commons, Graham, leader of the Labour Party, said: "We are facing the greatest crisis of our time. The prices of food and raw materials have risen to unprecedented heights. The working class is desperate. The working class is desperate. The working class is desperate."
Harvey Firestone Goes to Liberia

By JOHN HARVEY

The plan of the Firestone Investment Corporation to open a factory in Liberia for the manufacture of rubber has been approved by the Liberian Government and the decision has been made by the Board of Directors of the company to erect the factory near the capital city, Monrovia. The plant will be built at a cost of $1,500,000 and will have a capacity of 100,000 tons of rubber per year. The company hopes to begin production within the next two years.

The Firestone Rubber Company, which was founded in 1902 by Harvey Firestone, is one of the largest producers of rubber in the world. The company has operations in the United States, Canada, and several countries in South America and Africa.

The decision to enter the African rubber market is part of the company's long-term strategy to diversify its operations and reduce its dependence on the rubber-producing nations of the world. The company has been facing increasing competition from other rubber producers, and by entering the African market, it hopes to secure a stable supply of rubber at a lower cost.

The project is also seen as a way for the company to contribute to the economic development of Liberia, which is one of the poorest countries in the world. The company plans to provide employment for local workers and to invest in the local community.

The company has faced some criticism from environmental groups, who have expressed concern about the impact of rubber production on the environment. However, the company has stated that it will follow strict environmental guidelines and will work to minimize its impact on the local environment.

The decision to enter the African rubber market is expected to be a significant boost for the company's operations and will help to secure its position as a major player in the global rubber market.

War Flames Burst in Europe

From page nine

Austria has been undecided whether to declare war on Germany or to remain neutral in the conflict. The Austrian government has been under pressure from both sides, and the situation has been tense.

The Austrian government has been considering a number of factors in making its decision. These include the military strength of the opposing sides, the potential for a quick victory, and the impact on the Austrian economy.

The government has also been considering the potential for a quick victory for either side. Austria is a small country with a population of about 8 million people, and it may be difficult to sustain a long war.

Unity in the Young Workers League

BY JOHN WILLIAMSON

During the war a number of our revolutionary young workers plunged into the Young Communist League. Many were inspired by the spirit of the moment, the desire for new life, and the hope to contribute to the building of a new socialist order. But many soon began to realize that in the YCL, the League and the Communist Party, the old slogans of the revolution were not carried out. The situation became more serious as the war progressed and the capitalist world grew more corrupt and reactionary.

The situation became more serious as the war progressed and the capitalist world grew more corrupt and reactionary. The YCL and the Communist Party were controlled by the old bourgeoisie, which was determined to maintain its power and privilege in the face of the growing uprisings of the working class and the peasantry. The League and the Party were not designed to lead the working class to victory, but to maintain the status quo and protect the interests of the ruling class.

The Tactile Prophet of the Proletariat

BY C. OMKAR ROBINSON

Working in the throws of the class struggle, we are called upon to make a fundamental shift in the way we think and act. We must abandon the old ideas of the past and embrace the new ideas of the present. The old ideas of the past are no longer applicable to our current situation. The new ideas of the present are necessary to guide us in our struggle.

We must learn to think in a new way, to see the world in a new way, to act in a new way. We must learn to think in a new way, to see the world in a new way, to act in a new way. We must learn to think in a new way, to see the world in a new way, to act in a new way. We must learn to think in a new way, to see the world in a new way, to act in a new way.
