YOUNG COMMUNIST INTERNATIONAL SESSIONS OPEN IN RED MOSCOW

Y. C. I. Grew in Last Period

MOSCOW, U. S. S. R., (By mail).—The VI Enlarged Execu-
tive of the Young Communist International was opened by Com-
rade Ivan Kaganovich, p. m. on October 25, 1935, in the Hall of
the Communist. There were present 26 members of the Executive, 23 representatives of various national organizations and 126 delegates from various countries.

Comrade Gupther pointed out, in his report, that it is a fact that the Y. C. I. Enlarged Executive was held to the same spirit as the Communist International—suggested no
enlargement between the two bodies. The report opened by Comrade
Kaganovich said that the majority of the Commissaries in their own circles in
advocating the unity of the Commissaries and the Commissaries in their circles as
the Commissary of the Commissary. The report was read and the Commissaries in
the Commissary were addressed. The report was adopted by a
motion passed in the meeting of the Commissary.

Our session will have to take a stand on the questions of tactics that have been recently discussed in the Commissaries and in a
number of parties. The Y. C. I.'s of a number of countries have unanimously taken a position in line with the C. P. R. and
the C. I. Hence there is no question that the body will take a
similar position.

Y. C. I. Grows.

The last period has been a period of growth for the Y. C. I. The great
est growth was in China, in England, and in the Soviet Union, the three
countries where the Y. C. I. is strongest.

This shows the real transfiguration of the Y. C. I. in the Soviet Union.
These are the results of the transfiguration of the Y. C. I. in the
Soviet Union.

Here today for the last few years and who have made the greatest work and
in our own back yard. The Y. C. I.

The struggle of the Y. C. I. has again taken its full of martyrs. We
have with us the representative of the Hungarian League who has been
enforced death. This is Comrade Ilie Kisses whom I greet in the
name of the entire Hungarian Executive.

(Reply applicable.) I also greet Comrade Manesian, the representative of
the League of Communist Youth of Bulgaria and Italy, in Finland and in
France. We cannot call all the world communist, but we
request the delegates to arrive in honor of the Commissary. All the
chains will serve to still further consults about the hour of
the hour of the hour of the hour of the hour.

Krasin is Dead

Krasin is dead, the

The famous Soviet diplomat passed away on Tuesday, Nov. 26, in St.

Krasin was born in the 1751 region of Russia in 1913. His
father was a communist and he was educated at the university. He
graduated in a technical university and he joined the Social Democratic Party of
Russia in 1914 and was a member of the Kroll in the Holstein of the
workers in 1903. In 1907 he

was a delegate in the congress of

He was an important member of the Communist League in
St. Petersburg. He was also a food commissary for the Red

Army during the days of the civil

revolution and later became commis-

sioner of foreign trade. He was a

member of the Central Committee of the Union of Soviet Republics.

During 1935 he was invited to China. He died in November 1935.

Pat Polak, recently reinstated to the U. S. Labor Daily in May, has

Pat Polak, now the member of the Union of Soviet Republics.

YOUNG COMMUNISTS MOVE TO CUT WAGES AND SMASH THE UNION

PARTS OF OPERATIVE SERVICES

By ART SHIELDS, Federated Press.

SCRANTON, Pa.—(FP)—Hudson Coal Co., whose breakers

point the northern anthracite field for many miles, is threatened with a strike of its 4,500

workers, says the United Mine Workers. The general Strike Committee of the 22 local unions involved says that unless the man-

agement remedies its policy of giving high wages to some miners and low wages to others, a strike will result.

Overshadowing other
grievances—"... with three
slopers from the coal system—by a national strike proposed by the

GMGW, making one miner the profiteer ever many miners. The union has\nalso been opposed to the con-

tract system and from time to time has wiped it out or cancelled it.

Perhaps most serious of all is the union's present welfare is Hudson Coal's latest move, forbidding orga-

nizers the right to come on its

properties and backing this up with a decla-

ration that the union does not have the right to a closed shop.

The company is limiting the basis for a closed shop agreement to its

members, which are engaged in a new

strike, and the miners put up with all of the recent dinners and
courses, with the exception of the closed shops.

The strike is a caricature of its three

companies. The action of the three

companies is a separate play in the battle of the whole union for a

new charter.

"All right," about a second; "let's have a convention and take action.

"Now a cigar, a drink, let's get on with our work. We'll go on with our work.

The union's and their satellites led the defiance of the closed shop, and are all leading

the open shop.

Y.C.I. Sessions
Open in Moscow
(Continued from page 1)

The chairman greeted the delegation of the C.C. C.I.: Manuilsky, Kukel, Zinoviev, Kamenev, and Zinoviev the floor:

New StruggleNeeded.

SMELTZER, chairman of the Executive of the Comintern, greeted us, he said that the Y.C.I. I. We greet the good work of the Y.C.I. the International youth movement, is a lively one, in the English and the Russian languages. The connection between Y.C.I. I. and the Cominform is thus a very close one. In the struggle for the Relative and partial stabilization of capital, the rationalization in the economy is a very important part of the tasks of the Comintern. The relative stabilization of capital prevents an upsurge of social peace, but brings new struggles for improving the lot of the masses. The fact that the problem of capturing power is a concrete task of the present generation helps to thrust them to those that have the proletariat against it. As for the work of the Russian Comintern, it is one of our basic tasks to win the masses to the side of the Comintern and organise them for the struggle.

The great general national movement of the great imperialists of Peking has put the whole great national movement of the Y.C.I. I. into the hands of the military chiefs, Chensheng fang la dun. Wu Peng Fei, but money is the least, according to the leadership of the Cominform, the great stall of the Chinese government, the financial part of the Chinese government, has called the Y.C.I. into its control. In view of the huge provinces and population, the influence of the Y.C.I. I. is being reduced. Meanwhile a strike has broken out in Hankou against the Chinese imperialists and the British and French frigates which have landed in Shanghai and in the coastal areas. American destroyers are being rushed to the naval ports. Moscow.

The entire press of San Salvador's American government has recognized the government of President Diaz. Diaz is the king of Wall Street, who came to power in the fake elections of the machiavellian process. The American government in view of the Y.C.I. I. is being reduced. Meanwhile a strike has broken out in Hankou against the Chinese imperialists and the British and French frigates which have landed in Shanghai and in the coastal areas. American destroyers are being rushed to the naval ports. Moscow.

Some League Questions
By I. REILLY

The question of young people in the sports, and in particular the Young Worker Baseball Leagues, has come up many times in recent years. The Young Worker Leagues have been one of the most successful attempts to organize youth into sports organizations that are not under the control of the larger clubs. The leagues have been successful in providing a safe and healthy environment for young people to participate in sports, while also promoting teamwork and collaboration.

The Young Worker Leagues have been successful in organizing and attracting young people to participate in baseball. The leagues have been able to attract a large number of young people, and they have been successful in retaining players. The leagues have also been able to attract sponsors, which has helped to fund the leagues and provide resources for the players.

The Young Worker Leagues have been successful in promoting healthy lifestyle choices. The leagues have provided opportunities for young people to stay active and healthy, while also promoting a healthy lifestyle. The leagues have also been successful in promoting the importance of education, and have provided resources for young people to pursue education.

The Young Worker Leagues have been successful in creating a supportive and inclusive environment for young people. The leagues have been able to provide a safe and welcoming environment for young people to participate in sports, and have been successful in creating a sense of community among the players.

The Young Worker Leagues have been successful in promoting sports as a way to build character and teamwork. The leagues have been able to provide opportunities for young people to learn important life skills, such as communication, leadership, and teamwork.

The Young Worker Leagues have been successful in promoting diversity and inclusion. The leagues have been able to attract players from a wide range of backgrounds, and have been successful in creating a diverse and inclusive environment.

The Young Worker Leagues have been successful in providing opportunities for young people to develop their skills. The leagues have provided opportunities for young people to develop their skills, both on and off the field. The leagues have also been successful in providing resources for young people to pursue their dreams.

The Young Worker Leagues have been successful in promoting healthy competition. The leagues have been successful in providing a healthy and competitive environment for young people to participate in sports, while also promoting healthy competition.

The Young Worker Leagues have been successful in promoting the importance of hard work. The leagues have been able to provide opportunities for young people to learn the importance of hard work, and have been successful in promoting the value of hard work.

The Young Worker Leagues have been successful in promoting the importance of sportsmanship. The leagues have been able to provide opportunities for young people to learn the importance of sportsmanship, and have been successful in promoting the value of sportsmanship.

Conclusion
The Young Worker Leagues have been successful in organizing and attracting young people to participate in baseball. The leagues have been successful in promoting healthy lifestyle choices, promoting sports as a way to build character and teamwork, promoting diversity and inclusion, providing opportunities for young people to develop their skills, promoting healthy competition, promoting the importance of hard work, and promoting the importance of sportsmanship. The Young Worker Leagues have been successful in providing a safe and healthy environment for young people to participate in sports, while also promoting a healthy lifestyle and promoting healthy competition.

The Young Worker Leagues have been successful in providing a supportive and inclusive environment for young people. The leagues have been able to provide a safe and welcoming environment for young people to participate in sports, and have been successful in creating a sense of community among the players.

The Young Worker Leagues have been successful in promoting sports as a way to build character and teamwork. The leagues have been able to provide opportunities for young people to learn important life skills, such as communication, leadership, and teamwork.

The Young Worker Leagues have been successful in promoting diversity and inclusion. The leagues have been able to attract players from a wide range of backgrounds, and have been successful in creating a diverse and inclusive environment.

The Young Worker Leagues have been successful in providing opportunities for young people to develop their skills. The leagues have provided opportunities for young people to develop their skills, both on and off the field. The leagues have also been successful in providing resources for young people to pursue their dreams.

The Young Worker Leagues have been successful in promoting healthy competition. The leagues have been successful in providing a healthy and competitive environment for young people to participate in sports, while also promoting healthy competition.

Youth Not Let Into the Unions
Organized in Special Sections
By DAVE RAPAO
(Y. W. Correspondent)
Los Angeles, Calif.—About 65 young workers under 21 years of age, who are not affiliated with any labor bureau or special section, were turned away from the Local unions No. 1 into Associated Apprentice Brotherhoods.

All boys must attend school which is in very close relations with the union.

In a statement made in the "Los Angeles Labor News, weekly union paper," Brother Jack Quinn, president of the apparel workers' Local, said: "Attracted by their 'Big Brother' the apprenticeship Brotherhoods of No. 1 have the campaigns for the next few years. A short time will be a movement of national scope. All labor councils, among the union leaders of tomorrow will bring about a better understanding and will afford the apprentices the opportunity to openly discuss and vote on questions that involve their future welfare."

Among the speakers who addressed the apprentices at their last meeting were International Deputy J. J. Gerhardt and Union News, covered.

The third apprentice organization that has been formed in this city for the last few months. Other youth trade union organizations which have been formed, are previously Pressmen and Plumbers' Apprentice Clubs.

There is a general favorability in the highly skilled trade to work for those under 21 years of age.

Report: The Young Workers do not support the organization of the youth workers, as the workers must demand admission into the regular unions.

When the blind and limitation of the youth becomes stricter line of the apprentices of the unions already organized must fight for admission into the regular union as a body and with special privileges (lower initiation fees and dues).

Subs are the life of the Young Worker.

CHICKEN DINNERS FOR MINERS.

This shilling of the wages of the Hudson Coal Company miners and the other unbearable conditions imposed on them is not an isolated case. Neither are the monthly chicken dinners given for the miners in the company colliery towns in preparation for the organization of a company union, explainable. This is the policy in practice of the operators' attempt to smash the United Mine Workers' Union and to lower the standard of living of the coal diggers. Such was the understanding of the National Coal Operators' Association, the recently organized Ohio Coal Operators' Association, and the other bosses' outfits.

The opening of some of the closed mines was not a sign of the pick-up in the industry. It was only a sign that the operators were short of men. "A strike is impending," declared the company, "and we need the labor of the miners in the coal diggers." This was later confirmed by much greater proportions in the spring.

For the miners there is one lesson in the present situation: Prepare yourself back. That the miners are understanding this lesson can be seen in the growth of the opposition movement in the union which is fighting for Brophy as president against as the reactionist Lewins.

ARMY-NAVY GAME AND MILITARISM.

We are glad to see that the Chicago Tribune editorializes on the true meaning of the Army-Navy football game played last Saturday in Chicago. They let the cat out of the bag. The game was one huge advertising scheme to foster in the minds of the people the idea of "national defense." The "packed stands," says the Tribune, "cheered for the army, piled the money into the pockets of one group of people while they breathed there not as patriots, but as capitalists." The army-navy game in Chicago was a huge signal for all the paid prostitutes of the bankers, steel kings and munition makers to raise a huzz and cry for more hectic war preparations—besides that the man power of the so-called national defense of 550,000 men was only a paper strength, and that Coolidge economy be hanged on the capitalist militarism.

We agree that the figure of 550,000 men is a paper figure. It is not overestimated but underestimated by the pinata capitalists to gibes the war-time sentiment. Why the army and navy run the factories when all the workers know that they run the factories? Our answer to this question is: When the workers know that they do not run the factories and the workers run the factories they will begin to ask themselves: why do they not want to be industries? Why do we control better than the capitalists manage to profit from our own sweat? Why this is only the beginning of a new common organization.

This means that the working masses must organize. It means that we must organize that the masses will fight more and more as a conscious class. In Russia when the working masses realized this they took over the factories and did not organize themselves a new government. There is no difference. Their method was to organize the commoncommon organization. They are two conditions which we must organize and be prepared to face a revolution. 1. Why do we need an international common organization? 2. Can we elect our own government? Other the ballot box.

We answer: 1. We need an international common organization because it will mean, that the workers will fight more and more as a conscious class. In Russia when the working masses realized this they took over the factories and did not organize themselves a new governmental to run those factories. Now they are developing a new Commonwealth, a society in which there will be no separate individuals, groups and parties and in which society itself will run the factories and develop all people. This will also happen in the United States when the workers realize that they run the factories, and the conditions are ripe for a revolution. 

Carl Summer.

There are two questions which we would like to answer: 1. Why do we need an international common organization? 2. Can we elect our own government? Other the ballot box.

We answer: 1. We need an international common organization because it will mean, that the workers will fight more and more as a conscious class. In Russia when the working masses realized this they took over the factories and did not organize themselves a new governmental to run those factories. Now they are developing a new Commonwealth, a society in which there will be no separate individuals, groups and parties and in which society itself will run the factories and develop all people. This will also happen in the United States when the workers realize that they run the factories, and the conditions are ripe for a revolution.

The December issue of the American Worker Correspondent will be the last issue off the press this year. Send in your subscription now before the end of the year.
FARMERS TURN RADICAL

By E. LAHTE.

IN the old days the small farmer looked towards the golden west for prosperity. He could not afford to hire outside labor, but worked the soil with his white family. Now the sun of the golden west has set.

When the war came to an end, the soil was set aside as industrial and agrarian peace. The agrarian crisis is certainly acute. The burdens of taxation increased tremendously for the poor farmers. The bankers, railroads and other capitalists left the poor farmers stranded and dry and dry. Millions were imprisoned in the United States. Here we have the problem of how can the poor farmers have higher priced machinery when they can't get what he should for his products?

What has the government done on the question? What did Cal's come, did that accomplish? Old the cut off foreign taxes been the burden on the small farmers? Both of those questions can be answered with, No! This adds the poor farmer to the rebel elements in our present society. The tax on the "manufacture of production," the small farmer finds that his interests are identical with that of the industrial proletariat. Already the farmers are breaking away from the old capitalist parties and casting in their lot with farmer-laborer tickets. In the 1920 elections large numbers of small farmers will support the development of a labor party.

The prospects in the United States look strong for a strong alliance of the poor farmers and workers which will help to defend imperialism and establish the farmers' and workers' government.

New Arrests Without End.

IRA.—The arrests in Bulgaria continues. Every day news arrives about arrests for the most incredible reasons.

In Ferdinand a 16-year-old worker, Iordan Dimitrov, was arrested because he sang a revolutionary song. He was terribly beaten and his arm was broken.
