IN THE INTERNATIONAL

The Results of the Report of the XIV. Party Congress of the All-Union Communist Party in Leningrad.

Now that the meeting of the Party organisation of the Leningrad "Red Pullowar" is over, the balance can be made of the events in this district following the reports of the Party Congress in Leningrad. In the plans of the organisation, the factionalist tendency was revealed, which was strengthened upon which it relied for support. Both the leaders of the Leningrad "Red Pullowar" and the factionary party on its every meeting with their organisation at their head, have been exposed due to the initiatives of these factionalists. By voting against the report of the district congress, the organisation of the "Red Pullowar" should firmly support all the decisions of the Party Congress in Leningrad.

Before the plenary session of the organisation, which was held on January 20th, its leaders had passed all over the faction a special appeal to all members of the organisation, in which the organisation was called upon "to express its point of view in an organised form" with regard to the report of the representatives of the C.C. The directors of the faction organisation, in common with a number of responsible functionaries of the Leningrad district council, had previously worked under the auspices of preparing this "organisation reception" of the representatives of the C.C.

The overwhelming majority of the members of the Party in the Pullowar works therefore emphatically repudiated the organisation's appeal and did not make a step to the councils of the organisation and condemned the district and county functionaries because they are always carrying on fractionary work, but unite under the flag only of the pullowar workers. Under the example of many other factory organisations, the meeting decided that the representatives of the district and county council should be convened with the object of electing the new district and county councils. On this occasion, the communistists of the "Red Pullowar" confirmed the general result that can now be summarised. This general result is as follows:

In all the factories in which the organisations in Leningrad withe the enunciation of the resolution of the Party Congress were passed without exception, recognising the correctness of the resolutions of the Party Congress, the representatives of the organisation of the "Red Pullowar" were voted against the resolution in the Pullowar works. The only organisation, in which the organisation of the "Red Pullowar" was in a majority was in the Pullowar works. This organisation had voted against the resolution of the Party Congress, and the organisation of the "Red Pullowar" had not received a report.

The following are the most important data:

In the six urban districts of Leningrad there are 717 factory organisations with 30,452 members, which are working at government factories. The following census was carried out on 3,453 organisations which are working at government organisations. The meeting of the organisations was attended by 30,453 comrade, i.e. 83% of the whole of the Leningrad membership. In five urban districts of Leningrad, the party organisation was attended by 25,734 comrade, i.e. 81% of the whole of the Leningrad membership. In five urban districts of Leningrad, the party organisation was attended by 25,734 comrade, i.e. 81% of the whole of the Leningrad membership. In five urban districts of Leningrad, the party organisation was attended by 25,734 comrade, i.e. 81% of the whole of the Leningrad membership.
