Advice From Nigeria

I have read many reports about treatment given to our brothers in arms (the black South Africans) and I have often wondered why they should be treated thus. They may have dark skins, but their hearts nevertheless are pure

NATS. PREPARE FOR CIVIL WAR

THE fatalistic and defeatist attitude of the Government towards the future was revealed in a recent speech by the Deputy Commandant-General of the S.A. Defence Force, Gen. R. C. Hiemstra, who said there was no danger of an African army from the north rolling down on South Africa, but there was a likelihood of internal troubles similar to those in Angola.

"Many of our compatriots may perhaps have the same fate as a certain section of the inhabitants of Angola, But I do not believe that the survival of our people will be threatened." he

In other words, rather than contemplate any extension of democratic rights to the Non-Whites, the Government is preparing for war against its own citizens, and has already in its own mind sacrificed the lives of an unspecified number of South Africans of all races to ensure the maintenance of White

This is a horrible prospect to hold out before the people of this country, but it is apparently all the Nationalist Government can offer. The possibility of peaceful negotiation and honourable agreement has already been rejected.

As far as the Nats are concerned, there will be no National Convention, no new constitution, no votes for Non-Whites—and no peace. "Blood running up to the horses' bits" is apparently all they can think of nowadays.

they can think of nowadays.

We say that by behaving in this way the Nationalist Government is teaching the people violence. Since it is determined to close every door to progressive social change, it will have only itself to blame if the disaster which it believes is inevitable eventually comes about.

And the outcome may not be quite what Gen. Hiemstra predicts. "Our" people may survive, but the Nationalist Govern-ment and all it stands for most certainly will not.

are laced with powerful, initiating resistance organisations of the people which can paralyse the aparthed political and cultural institutions, and cripple the economy and exploitation of the people. It is therefore essential that throughout the country, the peasants, the farm labourers, the youth and students, the women and the workers in their trade unions should be organised into powerful organisations and infused with the spirit of actively degradant with the spirit of actively degradant productions and the spirit of actively depth in the spirit of actively defined and undermining aparthelis schemes.

The past struggles of the people have already created a basis for all these organisations and they now require building and strengthening. It is only powerful organi-sations that can win in a tug o' war for political power against the Nationalists.

What are the Targets of the Non-Co-operation Campaign?

The broad targets of the non co-operation campaign are all colitical and cultural institutions assed on apartheld and all economic agricultural betterment and

misc, agricultural, betterment and rehabilitation schemes, Native (Settlement of Disputes) Act etc. However, the immediate and central targets are the political in-stitutions. they have been established they must be smashed. Whilst the full weight of the

people's organisations must be directed against these institutions it is not occessary to remain inactive and first await their estabactive and first await their estab-lishment. There are in every area numerous specific disabilities of the people, like high rents, trans-port costs and the like which are a direct result of apartheid prac-tices. The wath of the people must be directed against these too.

What Must Be Our Strategy in This Campaign?

Non-Co-operation can be a struggle taking different forms in different parts of the country and at different times. It might involve a frontal attack on apartheid institutions and schemes, it might also involve the use of various forms of industrial action,

Its success will depend on the united force of the people defying united force of the people delying and undermining apartheid in different ways. Uniform and simul-taneous action will not always be possible throughout the country. At the same time isolated action lead to disaster by getting the Government to concentrate all its machinery in that area and crush the resistance of the people

It is therefore essential that

There are problems: how to convince the home territory that the repatriate does in fact belong to it: the lengthy borders with the Protectorates and the Rhodesias and Portuguese East Africa, It is hinted that the Government will tighten the screw on employers of these Africans; even place on en ployers the onus of repatriating foreign Natives."

An official of the Federation and Nyasaland Government made one strong point: "I feel it is morally wrong." he said, "that after a man has been allowed to remain in a country for more than five years, or a period long enough for him to get settled and establish a family, he should then be expatriated, even if he did enter the country illegally. Most of the Nyasas and Rhodesians have been given permits under section 20 for so long that sudden expatriation now is an inhuman destruction of them as people."

A good, valid argument.

But what of Britain's attitude and that of the governments of the Rhodesias and Nyasuland?

For far too long Britain has sat For far too long Britain has sait by with folded arms and eyes Johannes Ndaonavuta, secretary turned away from the scene, know-ing that the South African Gov-ernment extracts the sweated extracts the sweated farms (the only places they are allowed to wors), but hounds and harasses them with cruel persist-ence as soon as they try to find better jobs and higher wages, and settle down to live a family life.

The appointment of the Director of the Security Police, Col. J. A. Rossouw, as Officer Commanding the South Africar Police Transkei Command indicates that the Government intends making an all-out effort to bring the emergency situation in the Transkei under Col. (at that time Capt.)

Rossouw was transferred to the Special Branch of the Police in 1953 and first served in Cape Town. He was responsible for the arrest of Sam Kahn, Brian a party which resulted in the Appeal Court eventually laying down a definition of what con tituted a gathering in terms of the Suppression of Communism

In 1956 he was appointed staff officer to the Commis-sioner of Police, Major-General C. J. Rademeyer, in Pretoria. At the end of 1960, by which time he had become a lieute nant-colonel, he was appointed Director of the Security Police. and was promoted to the rank

and was promoted to the rank of full colonel in May 1961.

He has already started his new duties in Umtata and, in the light of his past record, can be expected to leave no stone unturned in his determination to "neeffo" the Transket nation to "pacify" the Transkei in accordance with the Govern-ment's Bantustan policies.

CUBA CANDIDLY ASSESSES PROGRESS TO SOCIALISM

By Cedric Belfrage

WITH a candour as dramatic as it was impressive, Cuba publicly reviewed every aspect of its changing economy in a week-end "production congress" held last month.

Delegates from all industrial and agricultural enterprises, participated with government leaders, economists and planners in assessing failures and successes of the struggle to convert colonialist anarchy and privation into socialist sanity and plenty, and in a sharp but comradely crossfire of criticism

For the New York Times the congress indicated crisis, "hunger" and an impending "purge". Cubans, watching on TV or reading reports in their press, joined in the delegates' hilarity at Premier Fridel Castro's reading of the Times story.

Leaving the nation with a full understanding of where the battle now stands, the congress spread new determination and confidence

that Cuba will by 1965 have built the solid foundations of abundance. The balance sheet for the first half of 1961 is that over-all production is up substantially compared with the first half of 1960, but that the planners were too optimistic about levels achievable in this stormy year of imperialist invasion. For example, they estimated a 23% higher output of shoes than has been achieved, although production is up 57% over the first half of 1960. On the other hand production of cigarettes has exceeded the plan,

CASTRO TOO

The congress was an expression of faith in an informed people. In every enterprise, Castro said, every worker should know what is being done, what its assets and problems are and how it fits into the national scheme. Castro called himself "one of those most to blame for the lack of attention to planning

cies to "ascribe all our troubles to imperialism," called for "correcting our own errors by publicly discussing them" and launched a barrage of criticism

oscussing them and bundened a parrage of chickess of the various ministries, starting with his own. The tremendous problems created by transforma-tion of the U.S. from a "paternal" tyrant into an aggressor emerged in one report after another. The cutting off of the U.S. supply source just as mass purchasting power is rapidly issing has brought food shortages—which emergency supplies from socialist shortages—which emergency supputes from becoming serious. The congress set dates for liquidation of the main shortages: Root vegetables, January, 1962; chicken, February, 1962; iish, June, 1962; fats (now rationed),

January, 1962; inst, June, 1962; iais (now rationed), January, 1962. Formerly self-sufficient in almost nothing, and get-ting 73.5% of its imports from the U.S., Cuba plans by 1965 to have invested 800 million dollars in 100 factories, including a big steel plant. By the end of 1962 small new plants will be producing acetates, plastics, folders, fibres, antibiotics and a dozen other

For transport Cuba will receive soon a 10,000-ton East German merchant ship (present fleet, 21) and by 1964 an operating shipyard from Poland; 10,000 more trucks and jeeps in addition to 10,000 already bought from socialist countries; 10 Soviet planes for internal flights (present fleet, 2 international, 4 national, 2 cargo); and during 1962, 850 more Soviet and Czech buses. Problems frankly raised at the congress included the desertion of Cuban ships' officers, aviation technicians and pilots, and urgent need for more technical schools.

technical schools.

Criticism was aimed mainly at administrative bureaucracy and the old Cuban custom of individuals and enterprises acting por la libre" (on one's own)—a habit officially declared anathema by Castro, since it was "the exact opposite of planning." Guevara found his own Ministry guilty of "an overdose of bureaucraey" and a lack of "vision, co-ordination and contact with the masses."

and contact with the masses," Targets of Guevara's barbs were the failure to appreciate the importance of statistics and the persistent notion that "quality of production, including packaging, is a capitalist viec." He called Cuban matches "one of our Ministry's biggest disgraces.

Hardly a person doesn't agree with us whenever he strikes one." Guevara also chidde enterprises for "too much democracy" in making decisions—foo many meetings and not enough delegation of authority.

Cuba's imperative need for a "do-it-yourself" approach was emphasised repeatedly and most of Guevara's praise went to the workers for initiative and imagination in this area. Workers' committees have had remarkable success in dealing with the "continuous crisis" of spare parts, and a campaign has started to "build your own machine-copy those

has started to "outly your own" machine—copy those we have if you can't get new."

In the area of raw materials formerly U.S.-supplied and now lacking, a "toothpaste crisis" has been licked by discovery of a substitute ingredient. The glass shortage (which produced temporary famines in milk. soft drinks and beer) is being solved with a Cuban soft offines and ocery is only software with a codar-raw material producing yellow-coloured bottles. Sub-stitute materials have brought back full production in industries partly idle earlier in the year, such as soap and detergents, and are being bought for pro-duction of bottle-tops (cork), dolls (rubber), and paint, for which materials formerly came from the

dollar area . . . Nationalised Coca-Cola has had no trouble in "penetrating" that popular drink's "secret for and purveying it as before to thirsty Cubans.

and purveying it as before to thirsty Cubans.

Manpower to get in the sugar cane remains one of
the biggest problems. Mechanisation with Soviet
technical aid is on the way, but 450,000 men will be
required for the next harvest. This year's plan to shortage, though the harvest was 16% above 1960's Another headache is the lack of warehouses, which has caused bad bottlenecks at all ports, especially Havana. Formerly arriving in many small ships. Cuba's imports now come in big freighters from as far as two months' voyage away. Mechanisation of Cantiago de Cuba's port—a mammoth task necessary for the new industrial centre to be created in that area—will take some of the strain off Havana.

WHAT OF WOMEN?

After almost two days of critical exchanges at the congress, Vilma Espin of the Cuban Women's Federation raised the question of why so few of her sex were in top administrative positions. Women direct about 30 hairdressers' establishments, but otherwise only one canning plant and one sugar central are headed by women. Admitting Cuba has not yet even tackled the problem of prostitution, Castro gave this answer to Senora Espin:

"Because women have been only half liberated."

In connection with Guevara's criticism of the Armed Forces Ministry, Castro pointed out that hundreds of delegates were in uniform and that the country's defenders and producers were in the main the same people. But military leaders must bear in

the same people. But military leaders must bear immind that the strangest defence force would have little value "if afterward we had no meat, no fish, no thing to defend," Castro said. In Cuba, he said, all agreed that armed forces were unproductive and developed that thew were still plored that they were still necessary. But "already we have almost forgotten that we had to mobilise three times in less than a year, sometimes for weeks, taking some of our most vital men and equipment away from production."

Castro concentrated on the continuing—though much reduced—favouritism for city dwellers over country folk in the distribution of items in short supply. (Short supplies in Havana today are often supply. (Short supplies in Havana today are often largely due to consumption in the country of com-modities which formerly were used only in cities.) Commenting on the New York Times report of "bunger" and "purges." Castro said: "The problem in Cuba is not that people are hungry—that was in the old days when three or four hundred thousand people had not a certain or in their prodests. people had not a centavo in their pockets.

"It is precisely because they have work and money that there is an extraordinary rise in their purchasing power. There are some shortages, but there would have been none at all but for the economic and military aggression of

The main thing, Castro declared, was to learn from publicly aired mistakes. "WHAT WOULD BE SERIOUS WOULD BE TO THINK WE KNOW A LOT. WE BEGIN TO KNOW WHEN WE UNDERSTAND THAT WE DON'T KNOW MUCH."

The Nats have a Black Record of Anti-Semitism

NO LOVE LOST BETWEEN **VERWOERD AND THE JEWS**

TRYING to justify his anti-Semitic outburst last week, the Prime Minister, Dr. Verwoerd, speaking impromptu ("out of my heart") at a meeting of the Witwatersrand Executive of the Nationalist Party said:

I WANT TO THREATEN THE JEWS OF SOUTH AFRICA

I WILL NOT DO IT PRIVATELY. I WILL THREATEN THE
WHOLE LOT OF THEM."

His contemptuous words reveal

that perhaps he has not yet spoken out his whole heart on the Jewish question. He is still hopeful that what he has already said will be

what he has already said will be enough to whip them into line behind his apartheid policy. "I do not want to divide the White people of South Africa. I want to gather them in one gather them group."

Playing Ball

The implication is plain: so long as the Jews support apartheid and stay in the White camp, they will be safe from persecution. But if be safe from persecution. But it they deviate into the ranks of the "integrationists," Progressives, Li-berals, Congressites, Communists and what have you, then the "tragedy" at which be hinted in his original letter to Mr. East is itsely to befall them. THESE RELATIVES WERE LATER TO PERISH IN THE NAZI DEATH CAMPS.

And there may have been hundreds of others like them, possibly thousands, who were denied the chance of life and a refuge in South Africa because of the virulent anti-Semitism of the Nationalists and their Greenbirt silies, and ists and their Greyshirt allies, and because of the cowardly appease-ment policy of the Hertzog-Smuts Government which was in power

at the time.

Yet there are still to be found
Jewish leaders who today defend

Verwoerd and send telegrams of support to Eric Louw at UNO! With the outbreak of the war and the initial Nazi successes, the arrogance of the Nationalists knew no bounds. They were convinced Hitler would win and their day would dawn in South Africa too.

Tool Of The Nazis

During this period, Mr. Justice Millin decided in the famous libel action which Verwoerd, then editor of Die Transvaler, had brought against the Star, that "he Verword) did support Nazi pro-paganda, he made his paper a tool of the Nazis in South Africa, and he knew it."

The jadge found that Verwoerd had falsified news and supported German wonavends.

"The Germans could have found nothing more convenient for their purpose than what the plaintiff did ... It was calculated to cause alarm and despondency and it is not open to doubt that it was of great service to the enemy in the way of supporting his propaganda for the damaging of the war effort of the Union."

Verwoerd was later, in a notorious speech in Parlia-ment, to dismiss this judgment as unimportant with the innuendo that Mr. Justice Millin was biased against him because be was a Jew!

The danger of an anti-Semitic campaign in South Africa will exist as long as the Nationalist or any other racialist Government remains in power.

Bearing the Nationalist black record in mind, and in the light of Verwoerd's latest outburst, how is it still possible for some leading Jews to send telegrams of congratulations to Louw for the stand he has taken at UNO?

What would they have thought of a Jew who had congratulated Louw on his 1939 speech calling for a halt to Jewish immigration?

Eastern Transvaal Win Inter-Provincial Shield

KIMBERLEY.

FASTERN Transvaal won the inter-provincial match shield when they beat the integrated Griqualand West XI 6-2 in the final of the South African "African" Football Association's Moroka-Baloyi series at the King George VI Sportsgrounds here recently.

There was never any doubt as to who were the accomplished footbal-ers. But the Transvaal team had to call on their reserves of experience over the disjointed but not dispirited Griqua side who have only them-selves to blame for their defeat.

Though the home-team at one stage looked as if they were getting stage looked as it they were getting on top, they lost concentration and their defence went to sleep. Trans-vaal were quick to capitalise on Griquas mistakes and pressed home their advantage.

Though Eastern Transvaal's de-Though Eastern Transvaal's de-fences were hard-pressed in the closing minutes of the first half, it was a different picture in the second half, when Eastern Trans-vaal not only camped in their op-ponents' half, but voored five goals to put an end to Griquas champion-thin changes. ship chances.

The game started off at a cracking pace and within eight minutes Eas-tern Transvaal opened the scoring when Mischack Springs beat Griquas pintsize goalkeeper Norman (alle hoekies) Isanes with a shot that hit the underside of the crossbar and bounced into the net. Soon and bounced mile the net. Soon afterwards Sakkie Pailman equalised for Griquas when he scored from a crosskick. Pailman scored again when he netted from a cross by centre-half Dan Taola to give Griquas a 2-1 lead at half-time.

Eastern Transvaal had the ball wice in the net after the interval out one by Clemens Khoza was disallowed. Andries Zwane, however, not only put Eastern Transvaal into the lead but made the game safe when he scored two goals in quick succession. His brother Joseph sealed Eastern Transvaal's victory with two more goals in the closing minutes from good frontline movements

But instead of friehtening the people, this indiscriminate raiding is deeply angering them and creating the same sort of tension as triggered off the Cato Manor killings and the events of 1960 preceding the declaration of a State of Emergency.

If the police want to avoid an explosion — THESE RAIDS MUST STOP. The people's patience is wearing thin.

"I WILL NOT BE INTIMIDATED"

—Cllr. Peake

CAPE TOWN. COUNCILLOR George Peake, executive member of the Coloured People's Congress, has

been banned from attending all gatherings in the Union and South West Africa for a period of five years. Meetings of the City Council are excluded from the ban.

"I refuse to be intimidated by this ruthless invasion of my right to freedom of speech," said Mr. Peake in a statement to New Age, "and shall continue in the struggle for a democratic South Africa.

"Mr. Vorster's malicious use of the ban to muddle and harass the liberatory movement is indicative of the Nats inability to govern. Whilst they may ban people from publicity expressing their opposition to abhorrent Nat laws, they can never ban ideas.
