**Mozambique, Mondlane and C.I.A.**

**The news that a so-called American philanthropic organisation has hired £20,000 to Dr. Mondlane to assist Mozambican refugees clearly shows that he is a member of American imperialism. All along genuine and dedicated freedom fighters throughout Africa have been watching with dismay the activities of this Portuguese sponsored intellectual who has been undermining and reporing the activities of dedicated freedom fighters to the Portuguese secret police, the PIDE.**

Dr. Mondlane’s hand is red with the blood of the Afrikanas who have been murdered through his connivance. One may ask the question why Portugal of all people chose to appoint an African at her representation in the U.N.O.? Dr. Mondlane’s wife, Janet, is a member of the C.L.A. and her activities against the forward march of progressivism elements is well known everywhere. Dr. Mondlane has the effrontery and the class impurity to brag that all progressive independent African States are communitarian. No wonder that his mediocrity is made up from his past upbringing and education.

No amount of intimidation and secret reports from Mondlane to his masters in U.S.A. and Salazar agents will stifle the tide of the revolution in Mozambique.

We know he is not alone in this game of intrigues and subterfuge.

We know he is being aided and abetted by prominent African personalities.

We shall not pretend what is in store for him.

But alas! He will very soon meet head to head, the tribunal of the oppressed and dispossessed masses of his motherland. Woe to him who sells his motherland for a paltry sum.

**AFRICAN PERISCOPE**

**In Mozambique Today It Is:**

**Road of No Return**

Portuguese colonialists, the oldest of all colonial powers in Africa, must be observed as was their South African and Rhodesian ilk if it was not the result of a colonial government and their activities in Mozambique.

The latter thrive and make Portuguese colonialists thrive with them on the sacrifices and misery of the Mozambican people, through the unscrupulous investments which feed the colonialists and sustain their economy in Mozambique.

As for the vested interests, their existence is incompatible with a democratic-socialist system for which UDENAMA stood.

This is the statement issued by the External Bureau of the Union Democratic National of Mozambique, UDENAMA.

It describes the struggle taking place against Portuguese colonialism.

"In Mozambique", say these freedom fighters, "we are on a road of no return. We shall never raise our arms until colonialism and imperialism is finally crushed."

**WITH AID FROM VARIOUS IMPERIALIST COUNTRIES-- THE GOVERNMENT OF PORTUGAL HAS BEEN ABLE TO CREATE VAST MILITARY BASES ON THE MOZAMBIAN SOIL.**

The creation of these bases is inimical to the real interests of the peoples of Africa and a threat to peace.

With Portuguese colonial policy oriented as it is, all of them to Portugual (mainly by governments of the U.S.A., Britain and France) only mean that the Africans have only to serve as puppets to enslave the Africans further and exterminate them.

**Long Delay**

The long delay in the liberation of Mozambique has given these so-called "colonialists" the chance to play their treacherous role and it is time that they were called to order.
nonsense—and we all see it. We shall all gain economically from working together as a team, for together we ourselves will be a force in the world which is of some account. Separately—quite frankly—we are not!

OUR TRADITION

I have tried to explain some of the attitudes of Africa which are often misunderstood. Basically they are these: From our traditional culture we inherit a strong sense of community, a strong consciousness of the need for unity, and a recognition of man’s interdependence. It is these lessons which we are now trying to apply to our needs in a new technological situation. And it is from them that stems our demand for human equality, and our desire for African unity in freedom.

SEARCH FOR FREEDOM

I believe that these ambitions, and the attitudes which they cause us to adopt in the international arena, are an inherent part of the search for freedom and justice throughout the world. This is as it should be; for African nationalism sprang from the Common Man, and it can serve him only while it serves humanity.

Nationalism, when they plan and direct. And it can serve humanity.

Basically that there is “dictatorship in Mozambique” and who were being targeted by the Portuguese colonialists, the time and conditions are definitely propitious for Mozambique to deal the final blow that will once and for ever end the humiliation of colonial domination on her people. In Mozambique we are on a road of no return and shall never lay down our arms until colonialism and imperialism is finally crushed.

ROY WELNSKY

I have great respect for the endurance of boxers in taking human punishment especially when punishments are inflicted to their will. I am not sure if the person who said that is well said, and done. Because they are dictating to their own kind and killing them for their crimes. I am not sure if they are dictating to the African people and to their own countrymen. The governed masses have not complained. If Roy feels that he is not being given full rights in this exercise, the one and only way open to him is to leave for his own country which, I am told, is open to him.

One ‘shudders to think that a crank dullard like Roy Welensky has been honoured with the accolade of ‘Sir’. The intrinsic value of Knighthood has now been bereft of its magnificent qualities, pomp and majesty. Past Empire builders of the Victorian era will kick in their graves when they get to know that their honoured award for distinguished services to the state has now gone to the dogs.

Now the time has come when we the people of Mozambique, and not only we but all the peoples of the world who stand for the eradication of colonialism and imperialism and for peace must expose and fight all that represents an obstacle to the achievement of our ideals and goals—National liberation.

Today in the face of the great changes that have been brought about in the international sphere by the universal upsurge of the African peoples, today, when the herculean struggle of the Angolan peoples and that of the people of so-called Portuguese Guinea cannot be crushed even by the colossal savagery of the fascist Portuguese colonialists, the time and conditions are definitely propitious for Mozambique to deal the final blow that will once and for ever end the humiliation of colonial domination on her people.

In Mozambique we are on a road of no return and shall never lay down our arms until colonialism and imperialism is finally crushed.
